## Frontend Developer

---

## WORK EXPERIENCE

### Mobile Developer with React Native - Consultora Blockchain

October to December, 2020 - Internship

I was in several groups of four developers with a tech lead who was mentoring us. I participated in the design of a statistics application and in the development and bug fixes of an application for the dental college in my city. We communicated with Microsoft Teams and we worked with Scrum methodology in ClickUp app.

### Portfolio with React.js - Personal Project

https://github.com/busta-design/personal-page

This application is my Portfolio, here you can find my work and a little about me. This was done with material-ui, style-components, react-router-dom, hooks, and firebase.
Link Web App: https://bit.ly/321XvE1 .

### Image Search Engine with React.js - Personal Project

https://github.com/busta-design/react-image-search-engine

This application is a image search engine and downloader of images consumed from a free API called Pixabay. Link Web App: https://image-search-3d130.web.app .
